Notes

Use this space to jot notes for things you want to study, topics that come up during the month for future reference, books to get at the library, etc.

Please note this is the very last monthly planner page that I will be creating.

Instead, there will be a detailed planning calendar in **every level of membership** here on the Handbook of Nature Study. As requested, this printable schedule will outline the entire year for you in one document!

New This Year!

Also available, will be a printable file with ALL of the year's notebooking pages in one document. This file will be available to **Ultimate and Journey level members.**

In addition, there will be a parent's version with the notebooking pages, an index of challenges and topics, and a chart that lists the corresponding pages in the *Handbook of Nature Study* by Anna Botsford Comstock. This will be in the **Ultimate and Journey level membership libraries.**
